Improvements

LibreOffice in business

LibreOffice is ideal for home and small office users, but The Document Foundation does not provide technical support. (Users can, of course, get help from other users on our [mailing lists](#) and [Ask LibreOffice](#).)

If you want to deploy LibreOffice in a larger organisation, we **strongly recommending sourcing it from one of our ecosystem partners**, such as those listed below. In that way, you can get long-term supported releases, personalised assistance, custom new features, custom bug fixes, and other benefits. Also, the work done by ecosystem partners flows back into the LibreOffice project, benefiting everyone.

Ecosystem partners

The following companies are part of our [Advisory Board](#), and are shown in random order.

- [Adfinis SyGroup](#) - Enterprise-level support
- [Collabora](#) - Collabora Office, Collabora Online
- [CIB](#) - LibreOffice powered by CIB, LibreOffice Online powered by CIB

Note that [additional professional support options are available](#).

Migrations and training

The Document Foundation, the non-profit entity behind LibreOffice, offers an extensive [certification program](#). Certified
